THE CANADIAN MEDICAL ASSOCIATION JOURNAL

LE JOURNAL DE L'ASSOCIATION MÉDICALE CANADIENNE

Volume 97 • Number 10 | September 2, 1967

Contents continued

INSTRUCTIONS TO CONTRIBUTORS

Manuscripts: All material intended for publication should be submitted to the Editor at the editorial office of the Journal, 150 St. George Street, Toronto 5, Ontario, with a covering letter requesting consideration for publication in the Journal. Acceptance is subject to the understanding that such material is submitted solely to this Journal, and will not be reprinted without the consent of both the Editor and the author. The Editor reserves the right to make such editorial changes as are considered necessary to ensure correctness of grammar, sentence construction and spelling, clarification of obscurities or conformity to Journal style.

References: All references listed in the bibliography must be referred to by number in the text. These should include in order: the author's name and initials, in capital letters; abbreviated journal name; volume number, page number and year. The abbreviations of journal names should be those defined in the *Index Medicus* of The National Library of Medicine, Washington, D.C.: e.g. 8. Willis, W. H.: *Canad. Med. Ass. J.*, 88: 411, 1963. References to books should include in order: author's name and initials; title of book; number of edition (if 2nd or 3rd, etc.); name of publishing house; city of publication, year of publication; page number (if a specific reference): e.g. 9. Underhill, F.: A textbook of medicine, 2nd ed., Jones & Jones Ltd., London, 1962, p. 1376.

Illustrations: Illustrations and tables should be sent detached from the manuscript. Illustrations, both half-tone and line, should be referred to as "Figures" and numbered in Arabic numerals. Tables should be numbered in Roman numerals. Each figure and each table must be accompanied by an explanatory legend, and the name(s) of the author(s) should be written on the reverse side. Separate sheets should be used for each table and illustration and for legends. Photographs should be glossy prints, unmounted and untrimmed, preferably not larger than 8" wide and 10" deep. The "top" of photographs, radiographs and photomicrographs should be indicated on the reverse side. No writing or typing should appear on any photographs. Any markings that are to be added to photographs should be indicated on a tissue overlay—not on the photograph itself. Colour work can be published only at the author's expense. Magnification of photomicrographs must always be given. Patients must not be recognizable in illustrations, unless the written consent of the subject has been obtained and supplied with the manuscript. Graphs and diagrams should be drawn in India ink.
